

V - BLOCKS
ČSN 25 5531

With Single Cut

The V-blocks with tolerance of parallelity of opposite sides of 0.03/100 mm and tolerance of right angles according to the formula $u=0.02 + T/10000$, where T= length of long arm of angle in mm, are available. The V-blocks are available in pairs, case-hardened to 50-55 HRC. In a special version, we are capable of delivering V-blocks of dimensions at the option of the customer including the cut angles.

O	L	S	V	Z	α	G
110	110	30	58	70	90	2.4
140	140	40	80	90		5
200	200	55	120	130		14.4
300	300	80	180	190		28

Dimensions in mm.

Legend:

O ... V-block marking

 α ... cut angle [°]

G ... weight [kg]
